CAR SEAT SAFETY PROGRAM

YOLO COUNTY

IS MY SEAT INSTALLED CORRECTLY?

WHAT SEAT DOES MY CHILD NEED?

WHAT ARE THE LAWS?

WHAT WE DO

- Show you how to properly install your car seat in your car.
- Adjust the harness so that it fits your child snugly.
- Discuss graduation, when your child can safely move to the next seat.
- Check for recalls on your seat.
- Give you the most current safety information.
- Recycle expired and unsafe car seats.
- Provide discounted rate car seats for Yolo County residents who receive government assistance.

WHAT IS THE LAW

2017 Buckle-Up Laws for Babies & Young Children:

- Children must be properly buckled in a car seat or booster, in the back seat of a vehicle, until they are at least 8 years old or 4 feet 9 inches tall.
- If a child is not in a car seat, the driver or parent can receive a citation with a minimum \$475 fine and a point added to their driving record.
- Children under 2 years old must be rear facing in a car seat unless they weigh 40 pounds or more, or are 40 inches tall or more. **Effective January 1st, 2017.**
- No smoking in vehicle with children

***Keep your children safe.
It's the law!***

Kaitlyn's Law (VC 15620)

Unattended Children in Vehicles:

- No person may leave a child age 6 or younger in a vehicle (unless supervised by someone at least 12).

Car Seats should not move more than 1 inch side to side or front to back at belt path

Remember the back seat is the SAFEST place for children until age 13!

INTERESTING FACTS

Did you know car seats expire?

Most car seats expire 6 to 9 years from the date of manufacture. If you can't find an expiration date printed anywhere on the seat, check the owner's manual. You can also call the manufacturer and ask them.

Reasons why using a secondhand car seat is not a good idea...

- You don't know the history of the car seat
- You don't know if it's been in a crash
- You don't know if all parts are present and in working order
- You don't know if the seat is expired
- You don't know if the seat is recalled

Common Mistakes

- Seat belts in the wrong belt pathway
- Infant seat facing the wrong way
- Car seat is too loose
- Using an expired car seat
